

DING YITAO

Year 2 Undergraduate Computer Science

Singapore | yitao36g@gmail.com | 94774382

Education

National University of Singapore (NUS)

Aug 2024 – Present

Bachelor Of Computing (Computer Science), Honours

GPA 4.82 / 5.0 | Second Major in Mathematics

- **Relevant Coursework:** Software Engineering (A+), Database Systems (A+), Operating Systems (A), Probability and Statistics (A), Artificial Intelligence (A), Information Security (A), Data Structures and Algorithms (A-), Competitive Programming (B+)

Experience

• Inventory Management Website (React)

May 2025 – Aug 2025

Built an inventory management website as part of an intensive 3-months school pair-work project. The inventory has a folder structure like Google Drive, with CRUD capabilities. I learnt to use key industry technologies like **React**, **Git**, and **Tailwind CSS**.

- Learnt to design Role-based Access Control permission systems.
- Used **Jest** for unit testing and integration testing
- Learnt relevant skills such as documentation, project management, and important soft skills for group collaboration and time management.

• Freediving CCA Website (React)

Dec 2025 – Present

As the Captain, I built a personal project to help automate and streamline CCA processes, including creating sessions, incident management, attendance tracking, and exporting to Excel. I learnt to abstract and modularize my code for maintainability and develop concise long-term solutions.

- Familiarized myself with **Next.JS framework**, **RESTful APIs**, **Redux**, **TanStack Query**.
- Used libraries such as **Zod** for type validation
- Integrate with Supabase and Prisma ORM for cloud storage.

Technical Skills

Web Development: Java, JavaScript, Typescript, HTML, CSS

1-2 years of experience

Algorithms and Data Structures: C++, Java, Python

1-2 years of experience

Backend & Database: Next.JS, REST APIs, PostgreSQL

≤ 1 year of experience

Information Security, AI & ML: Pytorch

≤ 1 year of experience

Additional Information

• Academic Background

I am strong in logical and systems thinking, being able to learn and pick up new tools quickly.

Notable courses I have taken include Competitive Programming, which has trained my ability to think fast and critically, and code with speed and precision.

• Language Enrichment

Studied Bahasa Indonesia from Level 1 to Level 3 out of self-interest and to challenge myself.
